

ADRIAN GLASMYRE

Lead Designer with 5 years of experience shaping brand-driven digital experiences and visual solutions from concept through execution. Combines strong visual design, branding, and UX expertise with a strategic, collaborative approach to creating cohesive brand touchpoints across web, marketing, and digital platforms. Proven experience leading projects, mentoring designers, and improving creative processes in fast-paced environments.

EXPERIENCE

WebFX | Lead Web Designer

Jun. 2026 – Present

- Leads web and digital design projects, translating client briefs, brand guidelines, and project goals into responsive, conversion-focused experiences across websites, landing pages, and digital marketing assets.
- Collaborates with developers, project managers, and creative teams to execute designs, solve UX challenges, and deliver high-quality digital experiences.
- Drives internal process improvements and shares design knowledge through team presentations and Lunch & Learns.
- Supports urgent client needs as an on-call designer one week per month.

WebFX | Associate Lead Web Designer

Jun. 2024 – Jun. 2026

- Built and maintained custom WordPress websites using Advanced Custom Fields (ACF), alongside projects in Shopify, BigCommerce, and HubSpot.
- Applied responsive design and UX principles across multiple page builders, including Elementor, Divi, and Avada.
- Used GitHub, version control, and Docker for site edits & builds.

WebFX | Web Designer

May 2023 - Jun. 2024

- Trained and reviewed junior designers on long-form content and PPC advertising, providing feedback to improve visual quality, consistency, and design execution.
- Designed UX solutions including multi-step forms and conversion-focused experiences using WebFX's RevenueCloudFX suite.
- Partnered with developers and project managers to translate design concepts into functional, user-focused digital experiences.

WebFX | Junior Web Designer

May 2022 - May 2023

- Designed landing pages, social media graphics, PPC ads, and conversion-focused digital assets across a wide range of industries.
- Created homepage and innerpage redesigns, with 25+ designs selected by clients, using Figma; collaborated with front-end developers to bring concepts to life across desktop and mobile.

WebFX | Web and Graphics Intern

Sept. 2021 - May 2022

- Created visual designs for blog posts and Gmail/PPC advertising campaigns.
