EXPERIENCE

WebFX | Lead Web Designer

Jun. 2026 – Present

- Promoted to Lead Web Designer overseeing high-priority website and digital experience projects while driving team alignment, quality standards, and delivery consistency.
- Leads end-to-end design and implementation of websites and landing pages across WordPress (ACF), Shopify, BigCommerce, and HubSpot, balancing UX, brand consistency, and technical execution.
- Integrate AI-assisted workflows (Cursor) into build processes to improve speed, iteration, and implementation efficiency.
- Acts as on-call designer one week per month, providing 8-hour daily coverage for urgent client requests and delivering same-day updates on high-priority work.
- Facilitates internal lunch & learns to share learnings and support team development.

WebFX | Associate Lead Web Designer

Jun. 2024 – Jun. 2026

- Translated client briefs, brand guidelines, and project scopes into thoughtful, on-brand design solutions across web, landing pages, and digital marketing assets.
- Lead page builds across multiple CMS platforms, ensuring responsive, on-brand execution.
- Utilized version control, Docker, and GitHub to support scalable, maintainable design implementations.

WebFX | Web Designer

May 2023 - Jun. 2024

- Designed a wide range of deliverables including landing pages, social media graphics, digital ads, micrographics, and conversion-focused assets.
- Supported UX initiatives such as multi-step forms and A/B tests, balancing usability, branding, and visual hierarchy.
- Reviewed and provided feedback on junior designers' blog, PPC, and marketing designs to uphold visual standards and brand consistency.

WebFX | Junior Web Designer

May 2022 - May 2023

- Designed social media, PPC, Amazon A+ content, and conversion-focused graphics with strong attention to typography, color, layout, and composition.
- Created homepage and innerpage website redesigns across multiple industries, with 23 designs selected by clients for implementation.
